Professional Profile:

I'm a fresh graduate from ELTE Faculty of Informatics with an interest in statistics, data and everything you can learn from. I'm motivated to learn as much as possible and to make use of my knowledge both in a team and solo.

Experience:

- Tutored for Highschool students in python and the office package
- Tutored for University students in python and object oriented programming
- Worked in the IT department of Freeway Entertainment developing website and working on big data as an Intern
- Worked at Mediadyn as a webdeveloper Intern
- Worked on multiple single projects for friends, family, school and myself

Education:

Graduated from ELTE Faculty of Informatics at 2026

Key Skills:

- Backend webdevelopment in laravel
- Object oriented programming languages
- Big Data Management:
 - Efficient data streams and processing in python and java
 - Neural Network in python
 - Sufficient in SQL

Personal Profile:

I'm interested in local and foreign politics, national and international economy and I try to learn as much about them as possible. Other than that I sail and play chess on an amateur level.
